

FELLOWSHIP LITERATURE SURVEY – 2010

We hope this survey will provide a sense of what the fellowship today would like to prioritize in the development of and/or changes to NA recovery literature. Our needs and desires vary widely around the world and the results from this survey will help us to get a sense of the fellowship's ideas. The World Board will use this information when considering what type of proposals to develop for future literature projects. We have not included questions about revisions to existing IPs for two reasons. First, many of the IP topics will be reflected in our in-progress book, "Living Clean: The Journey Continues." Second, keeping our literature current is still an important activity, but in past literature surveys we were unable to obtain clear direction on IP revisions. WE believe we need to develop another approach to gather that feedback. We thank you for your participation in this important project.

What New Literature Do We Need?

We ask that you consider the needs of members globally in assessing what is needed or not, and what literature we should prioritize. Sometimes, we tend to look around our meetings and believe we have everything we need; yet that may not be true for addicts who have not found NA or for members in developing NA communities in other places in the world.

| Do you think NA members could benefit from new recovery literature? | Yes | No |

| Comments | | |

The following are ideas submitted for pieces of literature from members over the years. Please check **one box for each identified topic**. We have left a space for **comments** after each item. If you have said that a piece of literature is very much needed, it would help us to better understand exactly what you are looking for in this piece of literature. Please note that the ideas listed under each category for a new piece of literature are just that, ideas. The scope and focus of the piece will still have to be determined.
